Advanced ergonomics for ultimate comfort

A sleek and sharp design that elevates any office environment with style and sophistication.

ITALDESIGN

The Industrial Design Division of ITALDESIGN, headquartered in Moncalieri, Torino - Italy, was established in 1981 and today is one of the most renowned and leading organizations in the industrial design field on a worldwide level.

Function

Ankle Tilt Reclining

Using the ankle as a pivot point, this mechanism moves in sync with the seat. Even when reclined back (up to 23°), it effortlessly supports your natural posture while keeping your thighs free from pressure.

Seat Height Adjustment

The lever on the lower right allows you to adjust the seat height up to 5 1/8 inches (129mm)

Seat Depth Adjustment

Levers within easy reach of hands enables you to easily slide the seat backward and forward up to 2 inches (50mm).

Armrest Adjustment

You can easily adjust the position of the ratchet-style armrests up or down to a maximum 4 inches (100mm).

Arm Pads Adjustment

You can adjust the arm pads in 30° increments up to 90° (two inward settings and one outer setting) to give you comfortable elbow support when using a computer.
